

# new NINTENDO 2DS XL

## CONSOLE PACKAGING GUIDELINES

Before submitting your Nintendo 2DS™ XL / Nintendo 3DS™ console for repair, please make sure you do these three things: Remove all Parental Controls (if possible). Turn off the wireless features. Switch the device off completely, rather than leaving it in Sleep Mode.

### YOU'LL NEED:

- A suitably sized box - available from your local post Office
- Your freepost label
- A photocopy of your proof of purchase
- Your full name and address details
- Bubble Wrap
- Scissors and tape

### STEP 1

Remove all games, casing, styluses and screen protectors from your Nintendo 2DS XL / Nintendo 3DS system before packing.

### STEP 2

Wrap your Nintendo 2DS XL / Nintendo 3DS in bubble wrap and place in the box, along with your photocopied proof of purchase and address details.

### STEP 3

Wrap any games and accessories that you are also sending back in bubble wrap and place into the box with your system.

### STEP 4

Seal the box, ensuring that there are no gaps or spaces in the packaging and that the item is secured inside. Attach your printed freepost label with the barcode and parcel number easily visible.

### STEP 5

Take your package to the Post Office, and don't forget to get proof of postage.

If your product is sent in with any other form of packaging, Nintendo will not be liable for any damage that occurs during transit. Please ensure that it is securely packaged and that the guidelines above are adhered to.
